The army worm may do more damage in the state than would an army in force.

If those senators and sophomores of the Chicago university don't reform they will land in the state legislature.

The sultan doubts his ability to comply with the demands on the powers. But perhaps the powers will help him to comply with their demands.

If the reports of renewed Turkish massacres of Christian missionaries be true it behooves the European powers to take another fall out of poor little Greece.

Of course, the sultan brought the Turco-Grecian war to an abrupt termination, just as soon as he was given to understand that unless he did the "General Mills" would have to miss the queen's jubilee.

The contest between romance and realism has reached a acute stage. An offer is made in a newspaper column to a woman to such proffers, to exchange "Tom Brown's School Days" for "setting of white Leghorn or Plymouth Rock eggs."

Herbert Spencer, the English philosopher, has mastered the science of method. He keeps five secretaries busy to date, though he himself can only work one hour a day when in his best physical condition. Much of the time he cannot work that one hour, but his secretaries, directed by him, do their daily task.

In the recent engagements the Greeks used against the Turks rifles which nearly thirty years ago were fired at Germany by the French, captured by the Germans, and by them sold to the Greeks. Many of these rifles have now been captured a second time. To whom will the Turks sell the out-of-date weapons? Their history makes them religious. They have a tendency to go off to the other side.

A press dispatch from Quebec tells of new guns received at that point, and also a quantity of projectiles for the five-pounders. The incident suggests that the history would have been changed had a few modern, quick-firing guns been magically supplied to Montcalm just as the English forces reached the Plains of Abraham. No heroism of Wolfe's little army would have been needed, for the instruments of slaughter suddenly reinforcing the defenders of Quebec, and it might well be that "Here Montcalm died victorious" would be the legend read on this historic monument which now commemorates Wolfe.

When Edward Bass, who became the first Episcopal bishop of Massachusetts, took his master's degree at Harvard, his thesis was "Will the blessed in the future world, after the last judgment, make use of articulate speech, and will that be Hebrew?" He decided both questions in the affirmative. Had he taken the negative he would have been equally safe since nobody could successfully contradict him. The incident suggests that in a century and a half the world has moved little. Men are still tempted to dogmatize about the unknown—but only here and there a theologian wastes himself in a vain search for their eternal verities, founded on the teachings of Christ, that relate to the formation of character for this life and for the life to come.

There are actually more employees of manufacturing, male, female, and child labor included in Germany, Great Britain and France than there are in the United States, though the population of the United States is 22,000,000 greater than the population of Germany, and 24,000,000 greater than the population of Great Britain or the population of France. There were returned by the last national census 5,691,000 persons as in "manufacturing" mechanical industries. In the United States, but only 4,000,000 in Germany, and 15,000,000 in France, and with those and other similar deductions from the number of those engaged in manufacturing and mechanical industries it is found by the last report of the commissioner of labor that the actual number of persons engaged in manufacturing in this country is 3,877,000. But though the number of employees in Germany, and other manufacturing countries, the United States stand at the head of them all in their products of manufacturing, the product by hand, the output of steam power and the annual wages paid.

Japanese courtesy stands the latest test. An American riding a bicycle in Tokio accidentally knocked down a venerable man. The American apologized, and the Japanese, who are courteous, bowed and bowed, and humbly begged pardon for being in his "honorable way."

That California professor who thinks he has discovered a lost race in Lower California needn't feel puffed up at Yale by his discovery. Harvard and Yale discovered the same thing the other day at Fougkekepie.

It is said an attempt will be made by the stockholders of a railroad to elect Russell Sage from the presidency. If they succeed we don't think the poor man will do, as the vacancies in presidencies are growing fewer since the courts went into railroad business.

Senator Vest, in a tariff speech the other day remarked that the finest and most luscious cherries in the world are raised in Oregon and Washington. The Cherry Shippers' association should promptly cancel the senator's season pass.

The title is turned. "Many Spaniards are Hanged" is the headline in a newspaper column. "Many Californians" are credited with being at the right end of the rope. This report shows the existence of "unwanted activity" in Cuba—if only the inevitable electioneering does not prevent it.

The famous "English stroke" which Trainer Lehmann has been explaining the benefit of the Harvard crew this year seems to be about as effective as an apoplectic stroke.

Attracted and convinced by the transforming effect of Christianity upon the stolid Orientals, a Chicago physician and his wife, tourists in western China, were recently converted and baptized at the Sifu mission.

Lieut. Fawcett will sail for the north pole in a few days, and those who wish to contribute to his relief fund may do so at once.

percent less than regular prices. You  
can do it only at John Egan's Gen-  
uine Big Sacrifice Sale, 6th street  
just around the corner, across from  
Columbian block.

Suits will be commenced by many  
of the settlers along the upper Mis-  
sissippi against the boom company for  
damages caused their farms by back  
water. At John Egan's place a new  
channel has been cut through his  
meadow, and the damage to others  
will be heavy.

founder of the Illinois State's Attor-  
ney Association, whose object is the  
foundation of an association through  
which the methods of criminal litiga-  
tion may be simplified, perfected and  
made uniform throughout the state.  
At the recent meeting of the associa-  
tion at Bloomington, Judge C. E.  
Chipfield, of Canton, recently of  
Brainerd, read a paper on "The Abol-  
ition of the Grand Jury in Illinois."

Joel Tucker, sheriff of Dodge  
county, arrived in the city Wednesday  
morning for the purpose of taking  
Knute Halverson back to Kasson.  
Halverson was arrested by Deputy  
Quillen at Pequot on Monday, the  
charge against him being incest.  
When the officer attempted to arrest  
him he attempted to escape by taking  
to the woods but was finally captured  
after a struggle. Halverson told De-  
puty Quillen that he was the man wanted  
but that the charges were false and  
had been trumped up against him on  
account of a neighborhood quarrel  
and that he had been in hiding at  
Pequot for ten days. Sheriff Tucker  
took the prisoner with him on the  
noon passenger on Wednesday.

It is the intention of the street  
car company to close up their busi-  
ness and take up the track not later  
than August 10th so the DISPATCH is  
informed by Supt. F. S. Parker. The  
reason for this action is because the  
business does not pay and future  
prospects for the business is not  
flattering. When the announcement  
was made public a number of the busi-  
ness men called a meeting to see if  
some arrangements could not be made  
whereby Mr. Parker would continue  
the business but nothing definite was  
arranged and a further meeting will  
be held the first of next week. In  
the event that the line is abandoned  
the Brainerd & Northern Minnesota  
will run its trains into the city from  
the Northern Pacific depot.

Sorry That He Spoke.

Chas. G. Essener was arrested by  
Deputy Callen at the Capicopia Club  
near Pine River, on Wednesday on  
the charge of having killed deer out  
of season. Mr. Essener appeared in  
court yesterday morning and entered  
a plea of not guilty and the case was  
continued until August 25th, upon  
payment of \$10 for costs and the de-  
posit of a bond for \$100 for his ap-  
pearance at that time. The arrest of  
the gentleman was brought upon him-  
self and if he has gotten into trouble  
he is solely to blame for it. The deer  
two fawns, were brought into camp  
at the club and the Philadelphia  
sportsman explained to the guests the  
exciting details of the hunt not for-  
getting to impress upon their minds  
the fact that he was the man who  
brought the game down with his un-  
erring aim. As luck would have it the  
matter got out and the arrest fol-  
lowed. Now, Mr. Essener claims he did  
not kill the deer but that the guide  
is the guilty party and that he, Essener,  
was allowed to claim the glory of  
the chase and that he is sorry that  
he spoke. Undoubtedly in future the  
gentleman will not claim the game of  
another hunter, especially out of  
season. Mr. Essener departed for  
Philadelphia this noon where he owns  
a hotel and several restaurants but  
will return in time for the trial and  
spend some weeks here in hunting  
during the fall.

Summer School Notes.

This is the third week of the school  
with an enrollment of 70, the actual  
attendance being over 60 several hav-  
ing been obliged to withdraw.

As the days go by the interest grows  
and the value of the school becomes  
more apparent. The work in history  
has been the study of the science of  
history rather than the accumulation  
of facts. Some of the questions be-  
fore the class were these: Was Texas  
justifiable in seceding from Mexico?  
Were the Southern states right or  
wrong in seceding from the Union?  
If Texas was right why not the south  
right? If the south was wrong on  
what grounds could the colonies be  
justified in rebelling against Eng-  
land?

These questions are put by the  
instructor, Dr. Magnusson, provoked  
much discussion and led to an invest-  
igation as to the origin of govern-  
ment and the rights of kings, presidents  
or congress to rule. It was decided  
that the right of government is Divine  
and does not rest in majorities or in-  
dividuals and that any government is  
better than anarchy or mobocracy.

On Wednesday evening the teachers  
were addressed by Rev. Geo. Gall-  
agher on "Heroes and Heroines" which  
was elegant and inspiring and the  
speaker held the attention of the large  
audience of cultured and refined peo-  
ple with his glowing pictures.

Members of district school boards  
often say "We do not need a teacher  
of education so much as we need a  
teacher of snapp and ability to govern."  
This is hardly the truth of the matter.  
What is really needed is teachers with  
the ability to govern and a mind  
broadened and skilled by a good edu-  
cation. Neither greatly alone will  
make a good teacher, both are  
needed and our summer school is  
greatly aiding to produce such teach-  
ers.

St. Cloud Suicide.

Dr. O. A. Gilman, one of the oldest  
and most popular physicians of St.  
Cloud, killed himself with a shot gun  
last Friday. He had been in poor  
health for some time, and of late was  
closely watched by his family, but he  
secured a gun and while his wife's  
sister was trying to get the weapon  
from him he pulled the trigger, blow-  
ing the top of his head nearly off.

The Mississippi Bridge.

On Tuesday the bids for construct-  
ing a bridge across the Mississippi  
river were opened at the auditor's of-  
fice but no award was made. Several  
bridge firms were represented and the  
bids ranged from \$15,000 to \$30,000,  
some of the companies putting in as  
high as six different bids for different  
kinds of structures. The meeting ad-  
journed until Tuesday at which time  
the commissioners will have the report  
from an expert engineer who has taken  
the bids, plans and specifications to  
St. Paul for examination.

Minneapolis Firm Sets It.

The bids for building a stone cul-  
vert over Buffalo creek were opened  
on Tuesday morning and the contract  
was awarded to the Van Norman  
Bridge Co., of Minneapolis, their bid  
being the lowest. The following were  
the bids offered:

Van Norman Bridge Co. .... \$590 00  
Gardner & Carlson. .... 643 00  
C. E. B. Bowler. .... 659 77  
Geo. E. Gardner. .... 679 75  
Aug. Cretsch. .... 690 00  
J. B. LaFond. .... 718 00  
Chas. Peterson. .... 751 40  
G. W. Young. .... 975 00

The successful bidder executes a  
bond for \$800 and is to have the work  
completed inside of 45 days.

Fresh From the Gold Fields.  
Henry Proteau, fourteen years ago  
a resident of Brainerd, arrived in the  
city this morning on a visit to his  
brother Thos. Proteau, and to-morrow  
the two leave for Montreal, Canada,  
to visit their former home. Mr. Pro-  
teau has been in the west and north-  
west ever since he left Brainerd, and  
among many others he went to Alaska  
two years ago. In company with  
two others they began prospecting,  
and struck it rich, and the three men  
now own five claims located in the  
Klondyke district that are worth  
many thousands of dollars. Mr. Pro-  
teau in conversation this morning  
said that he would not advise any-  
one to go into that region unless  
they are thoroughly prepared to ex-  
perience hardship and privation, and  
with the expectation of laboring  
hard, and also that it was necessary  
for a man to be provided with pro-  
visions, etc., to last for some time,  
as everything in the way of staples  
commanded a very fancy figure in that  
region. Mr. Proteau said that his  
company were paying laborers  
\$1.50 per hour or \$15 for a day's  
labor of ten hours. He left Dawson  
City on June 19th, and after taking  
his brother, who is a cripple, to  
Canada, and visiting with his rela-  
tives for a few days, he will return  
to the mining regions. He says the  
reports from the gold fields are over-  
drawn in some instances, but in the  
main are correct, and that while  
many who go there make a strike, a  
big majority are satisfied to work  
at day's wages at the prices offered,  
and apparently there is work for all.  
Mr. Proteau gave his brother \$1000  
this morning with which to get ready  
to go to Canada, and assured him  
that when they reached their destina-  
tion he would be supplied with all  
the money he wanted. The five  
mining claims are worth \$200,000  
each, and the three gentlemen can  
take that amount for them at any  
time they wish.

Coming to Brainerd.

We are loath to announce that Mr.  
and Mrs. F. J. Murphy will leave  
Grand Rapids about the first of  
August for Brainerd where Mr.  
Murphy has purchased a plumbing  
business. Mr. and Mrs. Murphy have  
made many warm friends during their  
residence among us who will be pained  
to learn of their intended departure.

But what is our loss, is Brainerd's  
gain and the people of that city can  
rest assured that in Mr. and Mrs.  
Murphy they will find two people  
of whose every aim is the betterment  
of the community in which they live. In  
leaving they take with them the best  
wishes of their numerous friends for  
a happy and prosperous life in their  
new field. Mr. Wm. McBride, who  
will be remembered as being in employ  
of Hennessy & Murphy last summer,  
will again come to Grand Rapids to  
look after the firms business at this  
place.—Grand Rapids Magnet.

MARRIED.

On Monday evening July 26, 1897,  
W. B. Streeter, of Minneapolis, was  
united in marriage to Miss Edith M.  
Stivers, daughter of Mr. and Mrs.  
H. C. Stivers, of this city, the cere-  
mony taking place in the former city.  
Mr. and Mrs. Streeter will reside in  
Minneapolis.

Bicyclists should refresh themselves  
with a glass of ice cream soda at  
McCadden Drug Co's.

A New Departure.

T. A. Martin has added an enamel-  
ing oven to his bicycle workshop and  
is prepared to enamel bicycle frames  
in any color desired and in a first  
class manner. Bicycles turned out  
from his shop look like new and satis-  
faction is guaranteed. If your bicycle  
needs a new coat of enamel see Mr.  
Martin and get his prices. 4-w

POINTON'S NEWS ITEMS.  
Joe Edwards had the misfortune to  
lose one of his horses on Saturday.  
A good move has been made by the  
school board in Pointons by digging  
a well and putting in a pump for the  
use of the school.  
Rev. Opie and family of Brainerd  
have been gathering raspberries in  
this vicinity during the week and  
stopped with T. C. Pointon's family.  
Miss Martha Bouton returned to  
her home in Wisconsin on Wednes-  
day last after visiting relatives here  
for several weeks.  
Messrs. Bane and Brown, of Brainerd,  
Sundayed at the Bush farm with  
their best girls.  
The Canon family have spent most  
of the week on Heron Island in Noka  
lake in quest of the festive raspberry.  
Miss Elizabeth Rosekrans, of Dead-  
wood, N. D., is visiting her uncle, Wm.  
Rosekrans, of this town.  
Ed. Garlinghouse and Elsworth  
Martin expect to start for the Dakota  
wheat fields next week. Letters from  
there give glowing accounts of the  
immense crop to be harvested. X.

Perfection in Cake-Making.

Housekeepers frequently wonder  
why it is that they cannot make suc-  
cessful cakes and that they are light and  
palatable and that taste as delicious as  
the biscuit and cake made by their  
mothers and grandmothers, the de-  
lightful memory of which even to this  
day creates a sensation of pleasure to  
the palate. The trouble arises from  
the highly adulterated state of the  
materials they have to work with, par-  
ticularly the cream of tartar and soda  
used to raise or leaven the food.

Cream of tartar and soda that are now  
procured for domestic purposes con-  
tain large quantities of lime, earth,  
alum and other adulterants, frequent-  
ly from five to twenty-five per cent,  
and consequently vary so much in  
strength that no person can tell the  
exact quantity to use, or properly  
combine them, to insure perfect re-  
sults. From using too much or too  
little, or because of the adulterants in  
them, bitter, salt, yellow, or heavy bi-  
suits or cakes are frequently made.  
These adulterants are also injurious  
to health.

All this trouble may be avoided by  
the use of the popular Royal Baking  
Powder. Where this preparation is  
employed in the place of cream of  
tartar and soda, its perfect leavening  
power always insures light, flaky di-  
gestible biscuits, cakes and pastry,  
that are perfectly wholesome and free  
from the impurities invariably present  
when the old raising preparations are  
employed.

The Royal Baking Powder, we are  
informed by the most reliable sci-  
entists, is perfectly pure, being made  
from highly refined ingredients, care-  
fully tested, and so exactly propor-  
tioned and combined that it never  
fails to produce the best and uniform  
results. An additional advantage in  
its employment comes from the fact  
that bread or other food made with it  
may be eaten whole without fear of  
indigestion or any unpleasant re-  
sults, while being equally sweet, moist  
and grateful to the palate when cold.

Oxford Ties  
and Summer Shoes are all included  
in the "Cut Price Sale." Every pair  
must go at some price. We will  
cheerfully show goods and quote  
prices at the Big 9.

Blueberry War Celebrated.

On Monday evening at St. Paul the  
survivors of what is known as the  
"Blueberry War" celebrated that event  
at the Commercial rooms in a  
quite an elaborate manner. The Pioneer  
Press gives an account of the blood-  
less affair as follows:

In July, 1872, Brainerd was the  
headquarters for the Northern Pacific  
railroad construction crews and its  
then terminus was but a short distance  
beyond that town. July 23, 1872,  
the people of the town, or the railroad  
men and the toughs with which the  
town was overrun, hanged two Indians  
or half-breeds who had murdered a  
young white girl in the neighbor-  
hood. The Indians gathered in the  
town or its neighborhood in a threat-  
ening and angry mood and the people  
became frightened to the extent that  
some of them left town. On the 24th  
John Gurley, then sheriff of Crow  
Wing county, a man of cool head and  
good courage, who had followed the  
building of the Union Pacific and the  
Northern Pacific roads as sheriff or  
peace officer in the different towns,  
telegraphed Gov. Austin as to the sit-  
uation and asked that troops be sent  
to his assistance. This telegram was  
received by the governor at about 10  
o'clock in the morning and between  
midnight and 3 or 4 o'clock of the  
morning of July 25, the members of  
the three St. Paul companies were no-  
tified to report at their armory at 7  
o'clock in the morning to go to Bran-  
denburg to suppress an Indian outbreak.  
Although the memory of the Sioux  
outbreak of two years previously was  
fresh in the memory of all, as the  
press of the time testified, not a man  
of that was notified failed to respond  
and at 8:30 o'clock in the morning,  
July 25, the expedition of about one  
hundred men started from St. Paul  
amid all the demonstrations attendant  
upon the departure of troops for the  
front. The troops and the people re-  
garded it as a serious piece of business.  
Fortunately no blood was shed  
although the demonstrations of a  
military force so promptly sent to the  
seat of apprehended trouble was re-  
garded and stated at the time to have  
had a very salutary effect upon the  
Indians and the lawless elements of  
the frontier where had gathered all  
classes of those who followed up the  
building of the great transcontinental  
roads of those days. The expedition  
was under the command of Cap-  
tain General Charles S. Dinkard and  
the governor commissioned the late  
Judge, A. J. Edgerton, to accom-  
pany it to treat with the Indians.

Owing to the being the height of  
the blueberry season and to some  
extent of the campaign it has ever  
since been known as the "Blueberry  
War."

almost at the apex. This is the spe-  
cial feature with "Ole Olson" which is

been expected this year but this caps  
the climax.

W. A. M. Johnston, Henry Linnemann,

ing and W. S. McLaughlin for  
Crow Wing county. To-day testi-  
mony is being taken at Sylvan Lake.  
The question in controversy now is  
whether 55 per cent of the legal  
voters signed the petition.

Barnett M. Chipfield, formerly  
of Little Falls, and now State's at-  
torney of Fulton county, Illinois, is tak-  
ing a prominent part in legal affairs  
in this state. Mr. Chipfield is the  
founder of the Illinois State At-  
torney Association, whose object is the  
foundation of an association through  
which the methods of criminal litiga-  
tion may be simplified, perfected and  
made uniform throughout the state.  
At the recent meeting of the associ-  
ation at Bloomington, Judge C. E.  
Chipfield, of Canton, recently of  
Brainerd, was the guest of the Abolition  
of the Grand Jury in Illinois.

Joel Tucker, sheriff of Dodge  
county, arrived in this city Wednesday  
morning for the purpose of taking  
Knute Halverson back to Kannon.  
Halverson was arrested by Deputy  
Gullen at Pequot on Monday, the  
charge against him being incest.  
When the officer attempted to arrest  
him he attempted to escape by taking  
to the woods but was finally captured  
after a struggle. Halverson told De-  
puty Gullen that he was the man wanted  
but that the charge was false and  
had been trumped up against him on  
account of a neighborhood quarrel  
and that he had been in hiding at  
Pequot for ten days. Sheriff Tucker  
took the prisoner with him on the  
noon passenger on Wednesday.

It is the intention of the street  
car company to close up their busi-  
ness and take up the track not later  
than August 10th so the Dispatch is  
informed by Sept. F. S. Parker. The  
reason for this action is because the  
business does not pay and future  
prospects for the business is not  
flattering. When the announcement  
was made public a number of the busi-  
ness men called a meeting to see if  
some arrangements could not be made  
whereby Mr. Parker would continue  
the business but nothing definite was  
arranged and a further meeting will  
be held the first of next week. In  
the event that the line is abandoned  
the Brainerd & Northern Minnesota  
will run its trains into the city from  
the Northern Pacific depot.

Sorry that He Speaks.

Chas. G. Essener was arrested by  
Deputy Cullen at the Capitanio Club  
near Pine River, on Wednesday on  
the charge of having killed deer out  
of season. Mr. Essener appeared in  
court yesterday morning and entered  
a plea of not guilty and the case was  
continued until August 26th, upon  
payment of \$10 for costs and the de-  
posit of a bond for \$100 for his ap-  
pearance at that time. The arrest of  
the gentleman was brought upon him-  
self and if he has gotten into trouble  
he is solely to blame for it. The deer  
two fawns, were brought into camp  
at the club and the Philadelphia  
sportsman explained to the guests the  
exciting details of the hunt not for-  
getting to impress upon their minds  
the fact that he was the man who  
brought the game down with his un-  
erring aim. An ask would have it  
the matter got out and the arrest fol-  
lowed. Now, Mr. Essener claims he did  
not kill the deer but that the guide  
is the guilty party and that he, Es-  
sener, was allowed to claim the glory of  
the chase and that he is sorry that  
he spoke. Undoubtedly in future the  
gentleman will not claim the game of  
another hunter, especially out of  
season. Mr. Essener departed for  
Philadelphia this noon where he owns  
a hotel and several restaurants but  
will return in time for the trial and  
spend some weeks here in hunting  
during the fall.

Summer School Notes.

This is the third week of the school  
with an enrollment of 70, the actual  
attendance being over 60 several hav-  
ing been obliged to withdraw.

As the days go by the interest grows  
and the value of the school becomes  
more apparent. The work in history  
has been the study of the science of  
history rather than an accumulation  
of facts. Some of the questions be-  
fore the class were these: Was Texas  
justifiable in seceding from Mexico  
and seeking admission to the Union?  
Were the Southern states right or  
wrong in seceding from the Union?  
If Texas was right why not the south  
right? If the south was wrong on  
what grounds could the colonies be  
justified in rebelling against Eng-  
land?

These questions admittedly put by the  
instructor, Dr. Magnusson, provoked  
much discussion and led to an in-  
vestigation as to the origin of govern-  
ment and the rights of kings, presidents  
or congress to rule. It was decided  
that the right of government is Divine  
and does not rest in majorities or in  
individuals and that any government is  
better than anarchy or mobocracy.  
On Wednesday evening the teachers  
were addressed by Rev. Geo. Gallag-  
her on "Heroes and Heroines" which  
was elegant and inspiring and the  
speaker held the attention of the large  
audience of cultured and refined peo-  
ple with his glowing pictures.

Members of district school boards  
often say "We do not need a teacher  
of education so much as we need a  
teacher of snap and ability to govern."  
This is hardly the truth of the matter.  
What is really needed is teachers with  
the ability to govern and a mind  
broadened and skilled by a good edu-  
cation. Neither greatly alone will  
make a good teacher, both are  
needed and our summer school is  
greatly aiding to produce such teach-  
ers.

Cloud, killed himself with a shot gun  
last Friday. He had been in poor  
health for some time, and of late was  
closely watched by his family, but he  
secured a gun and while his wife's  
sister was trying to get the weapon

The Mississippi Bridge.

On Tuesday the bids for construct-  
ing a bridge across the Mississippi  
river were opened at the auditor's of-  
fice but no award was made. Several  
bridge firms were represented and the  
bids ranged from \$15,000 to \$30,000,  
some of the companies putting in as  
high as six different bids for different  
kinds of structures. The meeting ad-  
journed until Tuesday at which time  
the commissioners will have the report  
from an expert engineer who has taken  
the bids, plans and specifications to  
St. Paul for examination.

Minnesota Firm Sets It.

The bids for building a stone cul-  
vert over Buffalo creek were opened  
on Tuesday morning and the contract  
was awarded to the Van Norman  
Bridge Co., of Minneapolis, their bid  
being the lowest. The following were  
the bids offered:

Van Norman Bridge Co. \$530 00

Gardner & Carlson \$530 00

C. R. Rowley \$529 77

G. E. Gardner \$529 75

Ang. Cronin \$529 00

J. B. LaFren \$528 00

Chas. Peterson \$527 40

G. W. Young \$526 00

The successful bidder agrees to a  
bond for \$800 and is to have the work  
completed inside of 45 days.

Fresh From the Gold Fields.

Henry Proteau, American years ago  
a resident of Brainerd, arrived in the  
city this morning on a visit to his  
brother Theo Proteau, and to recover  
the two leaves for Montreal, Canada,  
to visit their former home. Mr. Pro-  
teau has been in the west and north-  
west ever since he left Brainerd, and  
among many others he went to Alas-  
ka two years ago. In company with  
two others they began prospecting,  
and struck it rich, and the three men  
now own five claims located in the  
Klondike district that are worth  
many thousands of dollars. Mr. Pro-  
teau in conversation this morning  
said that he would not advise any-  
one to go into that region unless  
they are thoroughly prepared to ex-  
perience hardship and privation, and  
with the expectation of laboring  
hard, and also that it was necessary  
for a man to be provided with pre-  
visions, etc., to last for some time,  
as everything in the way of establish-  
ments commanded a very fancy figure  
in that region. Mr. Proteau said that  
his company were paying laborers  
\$1.50 per hour or \$15 for a day's  
labor of ten hours. He left Dawson  
City on June 19th, and after taking  
his brother, who is a cripple, to  
Canada, and visiting with his rela-  
tives for a few days, he will return  
to the mining regions. He says the  
reports from the gold fields are over-  
drawn in some instances, but in the  
main are correct, and that while  
many who go there make a strike, a  
big majority are satisfied to work  
at day's wages at the prices offered,  
and apparently there is work for all.

Mr. Proteau gave his brother \$1000  
this morning with which to get ready  
to go to Canada, and assured him  
that when they reached their destina-  
tion he would be supplied with all  
the money he wanted. The five  
mining claims are worth \$200,000  
each, and the three gentlemen can  
take that amount for them at any  
time they wish.

Proceedings of Board of Equalization.

Meetings Held July 19, 20,  
21, 22, and 23.

miss this.

Coming to Brainerd.

We are loath to announce that Mr.  
and Mrs. F. J. Murphy will leave  
Grand Rapids about the first of  
August for Brainerd where Mr.  
Murphy has purchased a plumbing  
business. Mr. and Mrs. Murphy have  
made many warm friends during their  
residence among us who will be pain-  
ed to learn of their intended depart-  
ure. But what is our loss, is Brainerd's  
gain and the people of that city can  
rest assured that in Mr. and Mrs. Mur-  
phy they will find two people whose  
every aim is the betterment of the  
community in which they live. In  
leaving they take with them the best  
wishes of their numerous friends for  
a happy and prosperous life in their  
new field. Mr. Wm. McBride, who it  
will be remembered was in employ of  
Hoenessey & Murphy last summer,  
will again come to Grand Rapids to  
look after the firm's business at this  
place.—Grand Rapids Magnet.

MARRIED.

On Monday evening July 26, 1897,  
W. B. Streeter, of Minneapolis, was  
united in marriage to Miss Edith M.  
Stivers, daughter of Mr. and Mrs.  
H. C. Stivers, of this city, the cere-  
mony taking place in the former city.  
Mr. and Mrs. Streeter will reside in  
Minneapolis.

The army worm may do more damage in the state than would an army in force.

If those seniors and sophomores of the Chicago university don't reform they will land in the state legislature.

The sultan doubts his ability to comply with the demands of the powers. But perhaps the powers will help him to comply with their demands.

If the reports of renewed Turkish massacres of Christian missionaries be true it behooves the European powers to take another fall out of poor little Greece.

Of course, the sultan brought the Turco-Greecian war to an abrupt termination, just as soon as he was given to understand that unless he did so General Miles would have to miss the queen's jubilee.

The contest between romance and realism has reached an acute stage. An offer is made, in a newspaper column devoted to such profits, to exchange "Tom Brown's School Days" for "setting of white Leghorn or Plymouth Rock eggs."

Herbert Spencer, the English philosopher, has mastered the science of method. He keeps five secretaries busy in order to bring his sociology up to date, though he himself can only work one hour a day when in his best physical condition. Much of the time he cannot work, for the French, captured by the Germans and by them sold to the Greeks. Many of these rifles have now been captured a second time. To whom will the Turks sell the out-of-date weapons? Their history makes them understand. They have a tendency to go off—to the other side.

In the recent engagements the Greeks used against the Turks rifles which nearly thirty years ago were fired at Germany, by the French, captured by the Germans and by them sold to the Greeks. Many of these rifles have now been captured a second time. To whom will the Turks sell the out-of-date weapons? Their history makes them understand. They have a tendency to go off—to the other side.

A press dispatch from Quebec tells of new guns received at that point, and also a quantity of projectiles for twelve-pounders. How the face of history would have been changed had a few modern, quick-firing guns been magically supplied to Montcalm just as the English forces reached the Plains of Abraham! No heroes of Wolfe's little army would have availed against such instruments of slaughter suddenly reinforcing the defenders of Quebec, and it might well be that "Here Montcalm died victorious" would be the legend read at that historic monument which now commemorates Wolfe.

When Edward Bass, who became the first Episcopal bishop of Massachusetts, took his master's degree at Harvard, his thesis was: "All the blessed in the future world, after the last judgment, make use of articulate speech, and will that be Hebrew?" He decided both questions in the affirmative. Had he taken the negative he would have been equally safe since nobody could understand him. The aged vicar suggests that in a century and a half the world has moved little. Men are still tempted to dogmatize about the unknown—but only here and there a theologian wastes himself in that useless manner. There are actually more employees of manufacturing, male, female, and child labor included in Germany, Great Britain and France than there are in the United States, though the population of the United States is 22,000,000 greater than that of Germany, and 34,000,000 greater than the population of Great Britain or the population of France. There were returned by the last national census 5,691,000 persons as in manufacturing and in commerce. In the United States, by inclusion, the number were 150,000 seamstresses, 185,000 tailors, 60,000 milliners, 288,000 dressmakers and 105,000 butchers, and with these and sundry other similar deductions from the number at those engaged in the mechanical and mechanical industries it is found by the last report of the commissioner of labor that the actual number of persons engaged in manufacturing in this country is 8,877,000. But though the number of employees is less than in other manufacturing countries, the United States stand at the head of them all in their products of manufacturing, the product by hand, the volume of steam power used and the annual wages paid.

Japanese curiosity stands the latest test. An American riding a bicycle in Tokio accidentally knocked down a venerable man. The aged victim, who cared himself together, deferentially approached the rider, and humbly begged pardon for being in his "honorable way."

That California professor who thinks he has discovered a lost race in Lower California needn't feel puffed up at all by his discovery. Harvard and Yale discovered the same thing the other day at Poughkeepsie.

It is said an attempt will be made by the stockholders of a railroad to sue Russell Sage and his associates. If they succeed we don't know who the poor man will do, as the vacancies in presidencies are growing fewer since the courts went into railroad business.

Senator Vest, in a tariff speech the other day remarked that the finest and most luscious cherries in the world are raised in Oregon and Washington. The cherry growers of Oregon should promptly cancel the senator's season pass.

The tide is turned. "Many Spaniards Are Hanged" is the headline in a morning paper, and the "Cuban captors" are credited with being at the right end of the rope. This report shows the existence of "unwanted activity" in Cuba—if only the inevitable correction does not show that the Spaniards read Texas rules.

## STRIKERS ARE REQUIRED

BOTH SIDES WAITING FOR THE RESULT OF THE OPERATORS' MEET.

The Arbitrators Are Highly Elated Over the Prospects—The Meeting Will Be a Big One—All Operators Favor Arbitration—Failure in West Virginia—Coal Mine Not Likely.

Pittsburg, July 27.—The mining situation in this district is quiet and unchanged. Both sides are waiting for the result of the meeting of the operators. The arbitrators are highly elated at the prospects. All agree in saying that it will be the largest meeting of operators ever held in this district. All of the operators are here and the Eastern people will arrive in the morning. Hotel lobbies are meeting places for the operators. The strike question is being well discussed. While a large number are not in favor of the old uniformity plan all are anxious to hear what the peace commissioners have to say.

The State of Colorado has for sale \$200,000 worth of bonds for "insurrection bonds," issued to defray the expenses of suppressing the Leadville strike.

The damage done to the Union Pacific tracks in Nebraska by the cloud-burst of Sunday night has been repaired and the trains are running again. There are indications of an early deluge.

Mrs. N. C. Crooke has arrived at Los Angeles, Cal., from Kansas. She has just returned from her projected circuit for the estate of the late miner, except that she would not play at the National Sporting club on Oct. 18.

Solly Smith and "Pillar" Palmer have been matched to fight twenty rounds for the bantamweight championship of the world and a purse of \$10,000 at the National Sporting club on Oct. 18.

Albert Auerman, wholesale notion dealer in New York, has been arrested by the police. He is charged with the murder of George W. Lusk, Jr., for the benefit of his creditors. His liabilities are placed at \$35,000; assets, \$90,000. He is charged with holding claims amounting to \$37,921.

The reports from Cheyenne Agency show that State Veterinarian Elliott has already killed over 250 head of diseased cattle. The disease is spreading and is out on a final trip to clean up the work, and that the number will be fully 100,000.

The formation of a safekeepers' combination that will include almost every manufacturer in the country, is now under consideration. Overtures, it is said, have been made for the principal safe companies.

News has been received at Millville, N. J., from Director George Braun, of the Federal Reserve Bank, that the manufacturers have accepted the same wage scale as last year. This means an early resumption of work in the iron and steel industry throughout the country.

Police Commissioner F. D. Grant of New York, at a meeting of the board, said in making his report on the case of the Capt. George W. Lusk, Jr., that he was failing to suppress a disorderly house in his precinct, that the police should have been more vigilant.

The fish commission steamer Allatross lowered the deep-water fish net off Cape Flattery, Wash. The net was drawn up with great difficulty, an enormous shark was found, weighing 1,000 pounds. The shark had devoured all the small fish in the net. The shark was cut up afterward and thrown overboard.
